MANHOLE COVERS

We stock an extensive range of manhole covers, access covers and gully gratings suitable for applications from pedestrian areas and driveways through to heavily trafficked highways. Available in a variety of sizes, materials and load ratings, our range includes stainless steel and galvanised steel covers, with options such as lockable, hinged, sealed, recessed and assisted lift designs.

Our products comply with BS EN 124 as a minimum, with many of our stocked castings also meeting UK Highways Agency CD534 requirements for long-lasting performance in demanding environments. Bespoke solutions are also available.

RANGE INCLUDES:

- Ancillary Items
- Badges
- BT Openreach
- Composite
- Gully Bags
- Gully Gratings
- Iron
- Recessed
- Steel
- Surface boxes

BESTSELLERS

IN MANHOLE COVERS

B125 Manhole Cover & Frame (Single Seal Access Cover)

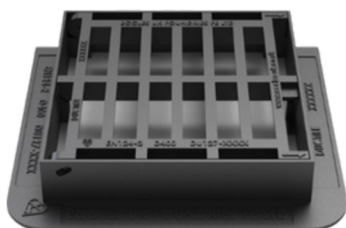

600mm x 600mm x 40mm

Material: Ductile iron with black coated finish

Design: Solid top, single seal with closed keyways

Applications: Pavements, footpaths, shared zones with occasional vehicle traffic

Load Rating: Certified B125 (125kN / 12.5 tonnes), Group 2, BS EN124-2:2015

D400 Gully Grating (Hinged)

450mm x 450mm x 100mm

Material: Ductile iron with black coated finish

Design: Hinged straight bar top with anti-theft captive hinge

Applications: Carriageways, hard shoulders, heavy-traffic gullies

Load Rating: Certified D400 (400kN / 40 tonnes), BS EN124-2:2015

YOU MAY ALSO NEED:

Manhole Cover Badges

Manhole Cover Keys

DUCTING

Our twinwall ducting range is designed to provide robust protection for underground utility services. We stock a wide range of colours to suit different applications, including black ducting for drainage and electric, blue for water, yellow for gas, orange for traffic signals, and green for CCTV networks.

Available in a variety of sizes, our twinwall ducting is supplied in both 6-metre rigid lengths and flexible coils, offering a practical solution for projects of all sizes. Built for strength, durability, and ease of installation, our ducting range helps keep essential services protected and easily identifiable.

RANGE INCLUDES:

- Access Boxes
- BT Openreach
- Electric Duct
- Gas
- Landcoil Drainage
- Marker Tapes
- Twinwall
- Virgin Green

BESTSELLERS

IN DUCTING

Supplied in **6-metre rigid lengths** and **flexible coils**

Twinwall Ducting (Black/Electric)

94mm/110mm x 50m

Twinwall ducting coil for electricity

Material: HDPE with corrugated outer wall

Applications: Protects underground electric and power cables

Features: Durable, lightweight, weather-resistant and industry compliant

Supplied in **6-metre rigid lengths** and **flexible coils**

Twinwall Ducting (Blue/Water)

94mm/110mm x 50m

Twinwall ducting coil for water pipelines

Material: HDPE with corrugated outer wall

Applications: Protects underground water pipes for secure routing

Features: Durable, lightweight, weather-resistant and industry compliant

BT / Openreach Quadbox Duct Chamber

915mm x 445mm x 150mm

Modular duct chamber with accessory support

Material: Twinwall plastic

Applications: BT / Openreach telecom networks, fibre rollout and access points

YOU MAY ALSO NEED:

Twinwall Bends

Twinwall End Caps

UNDERGROUND DRAINAGE

We stock a comprehensive range of underground drainage products, including pipes, fittings, drain testing equipment, flexible couplings, and Wavin Osma systems. Suitable for domestic, commercial, and civil engineering applications, our range is designed to deliver reliable performance, straightforward installation, and long-term durability.

We stock products from leading manufacturers and maintain extensive stock levels to help keep projects on schedule. Whether you're installing a new drainage system, carrying out repairs or connecting to existing infrastructure, our team can help identify the best products for the job and ensure compatibility across your drainage network.

RANGE INCLUDES:

- Pipes & Fittings
- Drain Testing
- Flexible Couplings
- Wavin Osma

BESTSELLERS

IN UNDERGROUND DRAINAGE

Underground Drainage Pipe (Single Socketed)

110mm x 6m

Material: High-strength PVC-U for long-lasting performance

Design: Single socketed for easy and secure pipe connections

Applications: Ideal for foul water, sewer and surface water drainage

Wavin Osma Square Cover & Frame

528mm x 528mm

Material: Polypropylene

Design: A15 load rating

Applications: For use with 450mm riser & 500mm NIC shafts (1.5m & 3m)

Wavin Osma Coupler (Double Socket)

110mm

Material: PVC-U

Design Double socket coupler for secure 110mm underground pipe connections

Applications: For Wavin Osma drainage systems inc. extensions, repairs, and joins

YOU MAY ALSO NEED:

Flexible Couplings

Pipe Lubricant

GEOTECHNICAL PRODUCTS

We stock a comprehensive range of geotechnical products designed to improve ground stability, manage moisture and support long-term performance across construction and civil engineering projects. Suitable for applications ranging from domestic groundwork to large-scale infrastructure schemes, our range helps provide reliable, durable, and cost-effective solutions.

We source products from leading manufacturers and maintain strong stock availability. Whether you're working on ground reinforcement, separation, filtration or waterproofing applications, our team can help you select the right solution for your project requirements.

RANGE INCLUDES:

- Geotextiles
- Damp Proof Membrane
- Damp Proof Course
- Geogrid
- Tanking Membrane
- Tapes & Accessories

BESTSELLERS

IN GEOTECHNICAL PRODUCTS

Stantrack Black Woven Geotextile

4.5m x 100m

Material: UV-stabilised woven polypropylene

Strength: Tensile strength 10kN/m (MD), 9kN/m (CD), CBR puncture resistance 1,500N

Water Flow: 10×10^{-3} m/sec permeability

Design: Robust, lightweight separator for groundworks

Application: Prevents mixing of sub-base and soil. Ideal for roads, driveways and civil engineering

Stantrack 1000 (100g/m²) Non-Woven Geotextile

4.5m x 100m

Material: UV-stabilised non-woven polypropylene

Strength: Durable, puncture-resistant construction for filtration and protection

Water Flow: High permeability to allow water while retaining soil particles

Design: Lightweight and flexible

Application: Ideal for drainage systems, soakaways, crates, landscaping and civil engineering projects.

YOU MAY ALSO NEED:

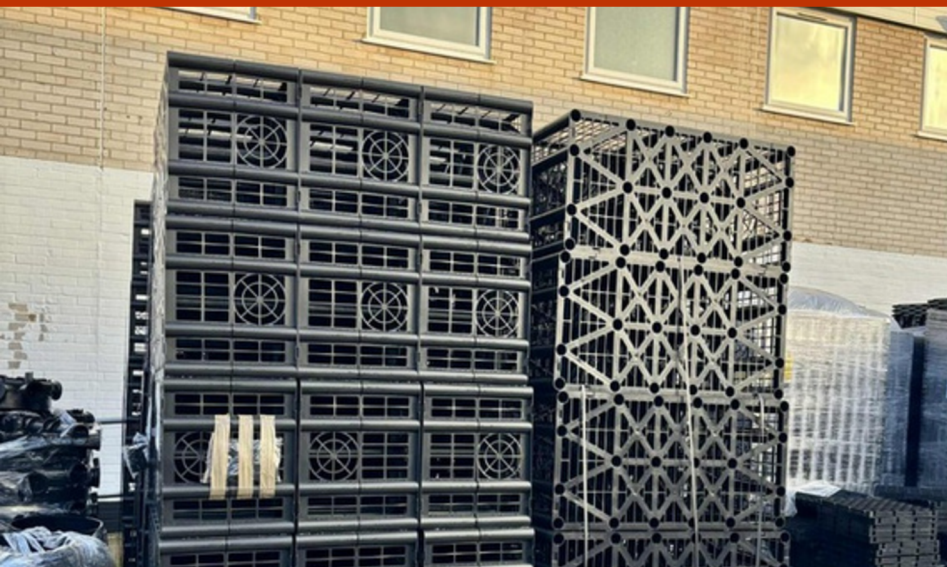

Radon Tape

Damp Proof Membrane

SOAKAWAYS & ATTENUATION CRATES

Our soakaway and attenuation solutions are designed to manage surface water effectively, helping to reduce flood risk and support sustainable drainage systems (SuDS). Suitable for residential, commercial, and infrastructure projects, these products provide a reliable and efficient way to control, store and disperse stormwater.

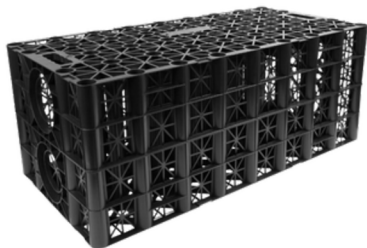

We stock products from trusted manufacturers and maintain strong stock levels to help keep projects moving. Designed for strength, durability, and long-term performance, our range supports effective stormwater management across a variety of ground conditions and project types.

RANGE INCLUDES:

- Stormwater Crates
- Diffusers
- Top Hats
- Silt Traps
- Accessories

BESTSELLERS

IN SOAKAWAYS & ATTENUATION CRATES

Polydrain Hydrocell Soakaway Crate

1000mm x 500mm x 400mm

Material: Manufactured from high-strength H-Poly for durability, corrosion resistance and long-term performance

Design: Lightweight, modular construction allows for straightforward installation and flexible configuration

Load Capacity: Will withstand loads of up to 62 tonnes

Wavin Aquacell Core-R Soakaway Crate

1000x500x400mm

Material: High-strength plastic, engineered for durability and long-lasting performance.

Application: Ideal for stormwater attenuation, soakaways, and sustainable drainage systems (SuDS)

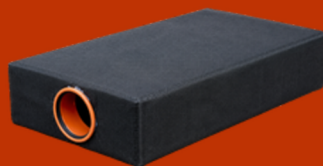

Load Capacity: Suitable under green spaces, light traffic, and beneath car parks when used with appropriate reinforcement.

YOU MAY ALSO NEED:

Silt Buckets

Rainwater Diffusers

WATER PIPES & FITTINGS

Our water pipes and fittings range provides reliable solutions for drinking water and sewer drainage installations. Available in a variety of sizes and specifications, the range is designed to deliver safe, efficient and long-lasting performance underground.

We stock a comprehensive range of pipes, fittings and accessories, including barrier pipe systems for use in contaminated ground conditions. Combining the benefits of polyethylene and aluminium, these systems provide enhanced protection while maintaining ease of installation. A wide selection of connection methods, fittings, tools and machinery hire options are also available to support your project.

RANGE INCLUDES:

- MDPE Water Pipe
- Water Pipe Fittings
- Barrier Pipe & Fittings
- Plasson Range
- Brass Taps & Fittings
- Tools

BESTSELLERS

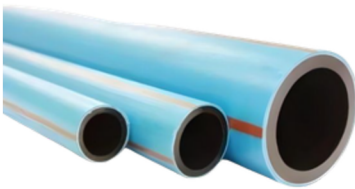

IN WATER PIPE & FITTINGS

MDPE Water Pipe Blue (Potable Water Supply)

25mm x 50m

Material: Medium Density Polyethylene
Application: Suitable for potable (drinking) water supply systems, provides a reliable water distribution solution for domestic and commercial use
Length: 50m roll for easier installation and fewer joints

Barrier Water Pipe (for Contaminated Land Use)

25mm x 50m

Material: High-quality, corrosion-resistant barrier pipe
Application: Suitable for potable water systems in brownfield and contaminated land
Length: 50m roll for fewer joints and faster installation

YOU MAY ALSO NEED:

Pipe Fittings

Brass Taps

LANDSCAPE PRODUCTS

Our landscape products range helps create durable, practical and attractive outdoor spaces across residential, commercial and public sector projects. Suitable for a variety of landscaping and groundwork applications, these products support effective ground stabilisation, surface water management and long-term performance.

From driveways and garden buildings to pathways and green spaces, our range provides reliable solutions that are quick to install and built to last. Designed to improve drainage, protect surfaces and enhance usability, these products offer a practical choice for both new developments and landscaping improvements.

RANGE INCLUDES:

- Shed Base
- Driveway Protection
- Grass Protection
- Channel Drainage
- Geotextiles
- Stormwater Crates

BESTSELLERS

IN LANDSCAPE PRODUCTS

Pave Tile Shed Base Grass & Gravel Grid (4 Pack = 1m²)

50cm x 50cm, 40mm depth

Material: 100% Recycled Polypropylene/ polyethylene mix

Applications: Grass & Gravel grids, Shed bases, and Driveways

Load Bearing: Up to 500 tonnes/m²

Shed Base Kit

6ft x 4ft

Kit Includes: 12 grid panels, weed control membrane and 10 ground pins

Grid Size: 2m x 1.5m (6.5ft x 5ft) area – suitable for standard 6x4 ft sheds

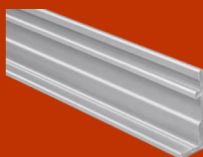

Purpose: Creates a stable, raised shed base on grass or gravel

Applications: Garden sheds, summer houses, bike storage, garden storage

Also available in 6ft x 8ft and 6ft x 10ft

YOU MAY ALSO NEED:

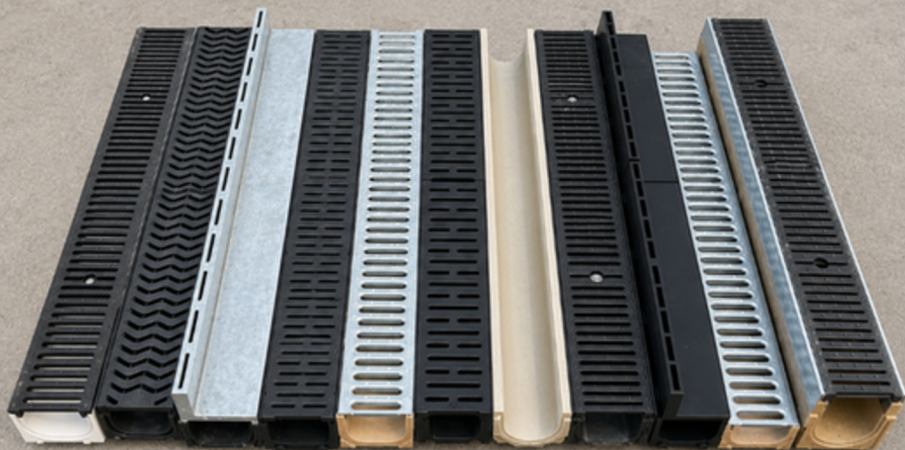

Lawn Edging

Geocell Erosion Control

CHANNEL DRAINAGE

Our market-leading channel drainage range provides effective surface water management solutions for both domestic and commercial projects. As heavy rainfall places pressure on drainage systems, it is important that roads, pavements, driveways and landscaped areas are protected from the build-up of excess surface water.

Available in a range of load classes and styles, our channel drainage solutions deliver long-lasting performance while complementing the surrounding environment. Many of our products are manufactured using renewable energy and are 100% recyclable, offering a durable and sustainable solution for modern drainage requirements.

RANGE INCLUDES:

- A15 Channel
- B125 Channel
- D400 Channel
- Slot Drain & Brick Slot

BESTSELLERS

IN CHANNEL DRAINAGE

Line Drainage Channel (A15 Offset Slot Top Brickslot)

1M x 135mm

Material: Recycled polypropylene with offset slot-top

Design: Brickslot cover with interlocking channel body

Applications: Block paving, patios, thresholds and walkways

Load Rating: A15 (1.5 tonne) for pedestrian use

Line Drainage Channel (B125 Ductile Iron)

1m x 100mm x 100mm

Material: Polymer concrete body with ductile iron grate

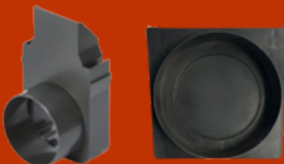

Design: Slotted grate for effective water flow

Applications: Driveways, patios, courtyards and access zones

Load Rating: B125 for up to 12.5 tonne loads

YOU MAY ALSO NEED:

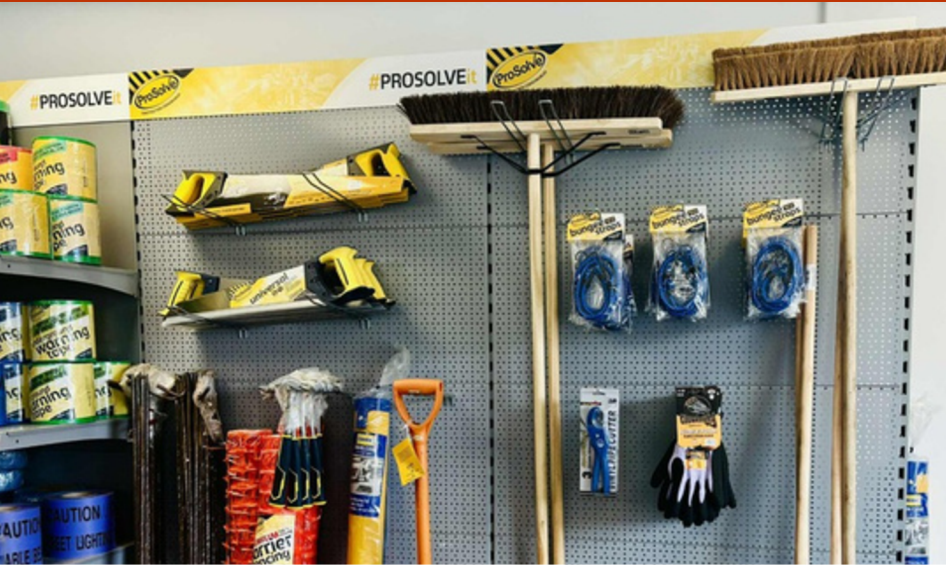

End Caps

Channel Threshold

ACCESSORIES

Our accessories range includes a wide selection of essential products used across construction, drainage and groundwork applications. From site preparation and installation through to identification, protection and finishing touches, these products support a variety of tasks on domestic, commercial and civil engineering projects.

Whether you're marking out a site, protecting work areas, managing ventilation or completing an installation, our range provides practical, reliable solutions for everyday use. Stocked from trusted manufacturers, these products are chosen to help improve efficiency, safety and productivity on site.

RANGE INCLUDES:

- Ancillary Items
- Marker Paints
- Orange Fencing
- Vents & Bricks
- Tapes
- Tools

BESTSELLERS

IN ACCESSORIES

Foam Lagging

35mm x 10mm x 2m

Material: Closed-cell polyethylene foam

Application: Pipe insulation designed for domestic and commercial heating and plumbing systems; offering low thermal conductivity, good moisture resistance and long-term durability.

Features: Temperature range of 0°C to +100°C (EN 14707). Low thermal conductivity to reduce heat loss & improve efficiency. Sound absorbing properties.

Underground Warning Tape – Electric (Non-Detectable)

150mm width x 365 metre

Material: 30 micron durable plastic

Design: High visibility yellow tape with “CAUTION ELECTRIC CABLE BELOW” text

Applications: Marking buried electric cables during excavation. Ideal for housing, commercial sites, and infrastructure works.

YOU MAY ALSO NEED:

Ancillary Castings

Air Bricks

DELIVERY SERVICES

With our own delivery fleet and trusted courier partners, we can deliver directly to your site, yard, or premises.

NATIONWIDE DELIVERY

Supplying customers throughout the UK.

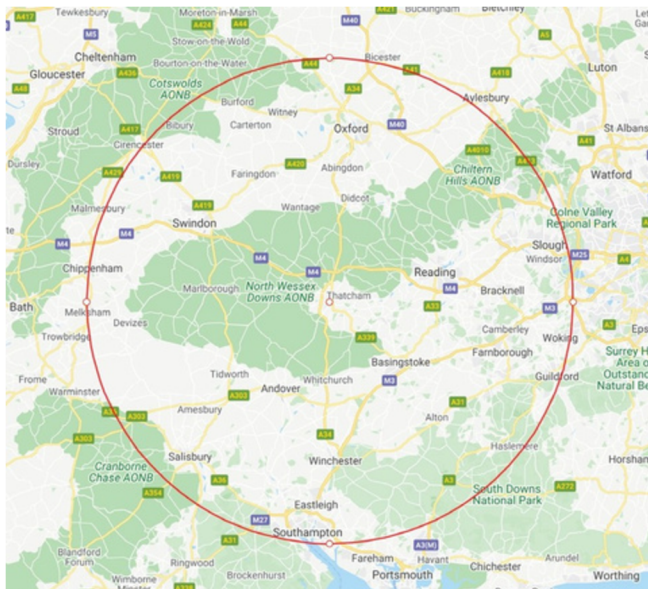

FAST TURNAROUND

We work hard to get your order to you as quickly as possible.

FREE NEXT DAY DELIVERY ON ORDERS OVER £100 WHEN ORDERED BEFORE 1 PM*

*Free next-day delivery within **RED** area only

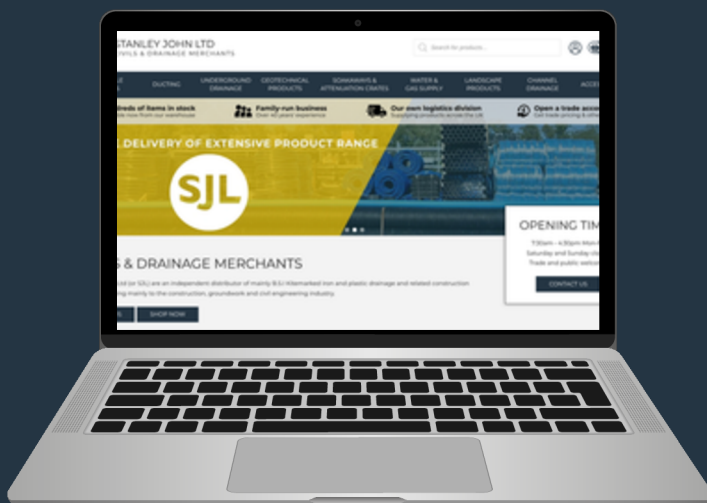

*May not apply when ordering lengths exceeding 3 Metres
